

Negotiation Blueprinting for Buyers fact based negotiation with case studies

Filesize: 4.94 MB

Reviews

Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Kian Harber)

NEGOTIATION BLUEPRINTING FOR BUYERS FACT BASED NEGOTIATION WITH CASE STUDIES

[DOWNLOAD](#)

Think! Inc. Paperback. Book Condition: New. Paperback. 186 pages. Dimensions: 8.4in. x 5.5in. x 0.6in. Since the 1980s industrial buying has gone from getting three quotes and executing a three-part carbon paper Purchase Order typed on an IBM Selectric typewriter, to a sophisticated electronic environment where information is available at the buyers computer command. With the introduction of ERP systems buyers can now assemble historical buy information, supplier history and performance, develop RFPs, RFQs and enable reverse auctions. Electronically, buyers can exchange offers with suppliers and transmit Purchase Orders via EDI. Procurement is now taught at the undergraduate and graduate levels as part of Supply Chain Management programs at universities around the world. Students emerging from graduate programs are more strategic thinkers and have a much broader understanding of business as ecosystems. Sellers are also getting more sophisticated. By doing online research, they have a much better understanding of their competition and of their company. They can quote from your annual report and cite your CEOs direction for the near future. Through email they may be talking to many other people in the company, selling to the business and bypassing Purchasing like never before. They too, are better educated and sell value-based solutions. Gone are the days of taking buyers to lunch and expecting a purchase order in return. And finally, deals have changed. Today, deals are rarely about just one price for one product. Buyers now find themselves buying products and services that include software, maintenance agreements, training, field service, supplier-managed inventory and a host of other things. Requirements are based on tight forecasts, Sales and Operations Planning (S and OP), and Lean principles. Buys are likely to be international, whether the buyer is purchasing from a local distributor or buying directly from overseas. Internal buying is complicated by currency,...
