Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Central Course of the Nervus Octavus and Its Influence on Motility After so many admirable researches as have been made of late about the mode of distribution of the N. octavus in the central nervous system, after all that has been brought to our knowledge from competent investigators, as to the influence exerted by this nerve on the muscular system in animals and in man, it may be considered an almost preposterous enterprise to publish another treatise, and moreover a monography, on the eighth cerebral nerve. Our knowledge having reached this stage, I am perfectly conscious of the impossibility that quite new views should be offered by this monography, in which the anatomy and the physiology of the nervus VIII are not studied by means of new methods. Yet...
