

Basic Food Safety for Health Workers (Paperback)

By M Adams, Y Motarjemi, Who Division of Food Safety

World Health Organization, Switzerland, 1999. Paperback. Book Condition: New. 297 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.A practical guide to basic principles and practices aimed at reducing the incidence of foodborne illness at both family and community levels. Addressed to health workers and their trainers, the book responds to the magnitude of health problems caused by foodborne illness, particularly in young children, the elderly, and other vulnerable groups. Although all components of food safety are covered, particular emphasis is placed on the hazards posed by the presence of pathogenic microorganisms in food. The book has seven chapters. The first introduces the problem of foodborne illness, discusses its health and economic consequences, and explains the concepts of infection intoxication and infectious dose. Chapter two focuses on foodborne hazards, gives a detailed account of the many biological, chemical, and physical hazards that can compromise food safety. Against this background, chapter three explains the processes of microbial contamination, growth, and survival as the main causes of outbreaks of foodborne illness. Particular attention is given to factors such as hygiene, temperature, time, nutrient and oxygen requirements, storage, and packaging that carry lessons relevant to safe food preparation...
