Reviews

A top quality ebook as well as the typeface used was interesting to see. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

National Academies Press. Paperback. Book Condition: new. BRAND NEW, High-Performance Structural Fibers for Advanced Polymer Matrix Composites, Committee on High-Performance Structural Fibers for Advanced Polymer Matrix Composites, National Materials Advisory Board, Division on Engineering and Physical Sciences, National Research Council, National Academy of Sciences, Military use of advanced polymer matrix composites (PMC)-consisting of a resin matrix reinforced by high-performance carbon or organic fibers-while extensive, accounts for less than 10 percent of the domestic market. Nevertheless, advanced composites are expected to play an even greater role in future military systems, and DOD will continue to require access to reliable sources of affordable, high-performance fibers including commercial materials and manufacturing processes. As a result of these forecasts, DOD requested the NRC to assess the challenges and opportunities associated with advanced PMCs with emphasis on high-performance fibers. This report provides an assessment of fiber technology and industries, a discussion of R&D opportunities for DOD, and recommendations about accelerating technology transition, reducing costs, and improving understanding of design methodology and promising technologies.
