Taylor Francis Ltd, United Kingdom, 2015. Paperback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book. To learn more about learning - what it is and how it works - it is necessary to look inside education. Inside Education takes the reader on a journey of four live education projects: the first all-Irish speaking, mixed-gendered, multi-faith primary school in the Republic of Ireland ideally suited to exploring learning identity; an alternative post-primary school for those who leave (or are left behind by) the formal education system also based in the Republic of Ireland and ideally suited to exploring personal learning; an early college school that enables students to simultaneously sit their high-school diploma and college exams based in Queens, New York and ideally suited to exploring learning success; and an adult education training centre that works with landless movement members based in Brazil and ideally suited to exploring learning power. Using a critical ethnography approach, each research narrative naturally unfolds/enfolds to tell a more complete learning story. All those interested in education are primed readers. By (re-)viewing their own learning outlook, they may begin to advance deeper critical ideas and debates in education. They may come to (re-)represent education, reminding public consciousness of its human stories, as well as its curious, intricate and powerful qualities. And they may (re-)discover other roads to raise a scholar. Teachers, educational researchers, parents and guardians will be particularly interested readers. Inside Education is a thought-provoking, challenging and revealing journey inside the world of education and learning. Its exploration of school and classroom practices in a range of different settings provides important insights into how we learn - a central aspect of our education system which remains overlooked and understudied. In doing so, it lays down a challenge to policy-makers and...
